## Senior ASP.NET MVC Web Developer

We are seeking a new Senior ASP.NET MVC Web Developer to join our growing team!\*

\*(Job Spec on pg.2)

### About Solab

Solab is one of the longest established IT services, business training & software development companies in Scotland. Based in Aberdeen, we bring knowledge, experience and expertise to the market and we proudly celebrated our 27th anniversary this year. Over our 27 years Solab has developed an extensive range of software for local and international organisations; from small departmental applications through to large-scale enterprise platforms; deployed as both Windows and web applications to users, and as services exposing programmatic interfaces to other systems.

Examples of our work include applications, systems and other software supporting daily global operations for: crew tracking, asset management, certification management, vessel availability & brokerage, competency management, helicopter availability etc.

For more details, visit our website: <https://www.solab.co.uk>

### Onboard Tracker™

The new Senior ASP.Net MV Web Developer will have a chance to join our software development team and contribute to the growth of Onboard Tracker™ – our innovative software as a service platform built for highly regulated industries such as Oil & Gas.

For more details, visit our website: <https://onboardtracker.com>
